SIMPLY CLEAN LED RECESSED FIXTURES

Description:

Simply Clean series of recessed fixtures are designed to be harmonious with the physical space of a room. These extrusions can be installed into any size new or existing drywall/gypsum walls and ceilings. Wattages range from 3 W/ft to 12 W/ft (9.8 W/m to 39.4 W/m) and is available in white, static colors, Variable White, RGB, RGBW, RGBA, and Warm Dim. The internal LEDs can be installed with waterproof coating, making them resistant to moisture, however these fixtures are not intended for outdoor use.

Features:

- IP Rating; IP20, IP65, IP68 options
- Simply clean recessed fixture
- Can be recessed or used as accent lighting
- Waterproof and UV resistant
- Additional accessories available; drivers, installations, and controllers etc.
- Calculations based on 1 foot, length of product varies.
