Electrical Data:

- **Input Power:** Stays consistent over life.
- **Input Voltage:** 100-277 VAC
- **CRI:** >90
- **L70 Lifetime:** >50,000 hours.

Construction:

- **Construction:** Aluminum housing.
- **Finish:** Trim - Powder coated in white or black. Reflectors- Powder coated inside in black.
- **Glare:** Unified glare rating (UGR) <19 making it easy on the eyes in offices or work settings.

Optical System:

- A unique combination of reflective & refractive optical components achieves a uniform, comfortable look while eliminating pixelation & color fringing.
- Parts work in unison to optimize light distribution, balancing the high delivery of high illuminance levels on horizontal surfaces with an ideal amount of light on walls and vertical surfaces, increasing perception of spaciousness.
